Road Safety & Simulation

23-26 June 2026, Naples, Italy

University of Naples Federico II

Wednesday, June 24, 2026, 14:00 – 15:45

Room Leopoldo Massimilla

UNECE Global Forum for Road Traffic Safety

Global Road Safety Governance and Innovation

Aligning science, policy, innovation for a safer society on the move

Why attend:

Join global leaders shaping the policies and technologies that will define safe mobility for everyone, everywhere.

What to expect:

This special session will bring together leading experts from government, academia, and corporate to explore the future of road safety policy in a rapidly evolving mobility landscape, mirroring the United Nations Economic Commission for Europe (UNECE) Global Forum for Road Traffic Safety Agenda.

The session is structured around two complementary pillars. The first examines the role of UNECE WP.1 in shaping regulatory responses to automated vehicles, addressing key challenges such as legal frameworks, human factors, and safe integration into traffic systems. The second broadens the perspective globally, highlighting initiatives that extend UNECE road safety principles beyond the ECE region, supporting safe, sustainable, and inclusive mobility while fostering societal cohesion.

Featuring contributions from internationally recognized speakers, representatives from institutions, research, private sector and NGOs, the workshop will promote dialogue, knowledge exchange, and strengthen international cooperation in road safety governance.

Featured speakers of part 1:

- Placido Migliorino, Ministry of Infrastructure and Transport, Italy
- Kenneth Fors, Swedish Transport Agency, Sweden
- Ava Goodman, St. Andrews University, United Kingdom
- Simon Caduff, Federal Roads Office, Switzerland
- Robert Ringsell, Department for Transport, United Kingdom
- Bryant Walker Smith, University of South Carolina, USA
- Tim Goodman, Amazon, USA
- Stephen Dempsey, Amazon, USA
- Clara Sanchez Lopez, IRU, Switzerland

Coffee Break

Featured speakers of part 2:

- Ricardo Fonseca, Mafra Municipality, Portugal
- Zhandos Amanbayev, Association of Professional Engineers, Kazakhstan
- Arystan Massanov, Scientific Research Institute for Road Safety, Kazakhstan
- Sam Clark, TransAid, United Kingdom
- James Bradford, iRap, United Kingdom
- Tova Rosembloom, Bar Ilan University, Israel
- Luciana Iorio, Global Forum, MIT, PIARC Italy
